Haryana Corneal Grafting Act, 1974 Haryana Act No. 25 of 1974 Statement of objects and Reasons. - In the State of Haryana the incidence of Trachoma and other eye infections amongst the people is high, resulting in blindness in many cases. For some of the blind people it is possible to give them sight again, by corneal graft. This operation involves replacement of a bad corneal with a corneal from a dead person's eye. For this purpose Eye-Banks can be maintained at the District Hospitals and the Medical College Hospital, where healthy corneal from a dead person's eye can be kept for a short period. Through education and persuasion many persons can be convinced that they voluntarily donate their eyes, which will be utilised after their death. This Act which already existed in the joint Punjab has to be adopted for the State of Haryana, so that this sight-saving work could be undertaken. This act has the provision for the use of eyes of deceased persons for therapeutic purposes. A person has to give it in writing in the presence of witnesses his express desire to offer his eyes after death for the therapeutic purposes, and the person lawfully in possession of his body after his death, will allow the removal of the cornea from his eyes. Legislation is needed for this purpose and the Haryana Corneal Grafting Bill 1974 is being put up for enactment. For Statement of Objects and Reasons, see Haryana Government Gazette Extraordinary, dated the 28th June, 1974, page 881. Received the assent of the Governor of Haryana on the 2nd August, 1974, and first published for general information in the Haryana Government Gazette (Extraordinary), Legislative Supplement Part I of 5th August, 1974.
