East Punjab Improved Seeds and Seedlings Act, 1949East Punjab Act 19 of 1949Statement of Objects and Reasons. - As a result of research work carried out by the Department of Agriculture, a number of improved varieties of crops have been evolved which give higher yield of better quality than the varieties grown generally by the farmers. By growing these varieties by all the farmers this country can become self-sufficient in food, and efforts have, therefore, been made in the past by carrying out extensive propaganda to get these varieties introduced on a large scale. Owing to the apathy on the part of some cultivators, it has not been possible to make headway to the desired extent in the case of some varieties. The growing of inferior varieties of crops by the recalcitrant section of agriculturists not only results in low yield and poor quality of produce but also brings about deterioration of the improved varieties by mixing which greatly thwarts the progress of the agricultural development. It is now high time to adopt such measures which will bring about increased production without much additional cost to the cultivators by forcing the backward section of the cultivators which is rather slow to accept agricultural improvements. Published vide East Punjab Government Extraordinary, dated the 23rd March, 1949Received the assent of His Excellency the Governor on the 24th October, 1949, and was first published in the East Punjab Government Gazette Extraordinary, dated the 29th October, 1949.An Act to provide for the use of pure and certified seeds and seedlings of the improved varieties of crops recommended by the Department of Agriculture in the [Haryana] [Substituted for the words 'Punjab' by the Adaptation of Laws Order, 1968.].It is hereby enacted as follows :-
