## 11. Mutations sanctioned under the earlier Act

Where extinguishment and/or vesting of rights in land, made by the earlier Act, have been given effect to by a mutation and such extinguishment and/or vesting have been made ineffective by section 43, a Revenue Officer not below the rank of a Tehsildar shall, after giving the parties 'an opportunity of being heard; endorse on such mutation an order, giving reasons therefor, directing that such extinguishment and/or vesting shall not be given effect to and indicating what entry, if any, be made instead of the one sanctioned under the earlier Act. Illustrations (i) X, a displaced person, was allotted one standard acre of evacuees land in each of the three villages A, B and C. He does not have any other land nor does any member of his family. He was not personally cultivating the land in any of these villages on first September, 1971. Mutations have been attested in all the villages giving effect to the extinguishment of the rights of X in all the villages under sub-section (3) of section 17 of the Jammu and Kashmir Agrarian Reforms Act of 1972. On each of these three mutations, the Tehsildar, acting under this Chapter, shall endorse an order directing that the order already passed be not given any effect, because sub-section (I) of section 4 does not apply to evacuees' land. (ii) X, a displaced person, was allotted evacuees' land in different villages as per details given below, namely :- in village A .....two standard kanal; in village B .....one standard acres; and in village C .....one standard acre; He was cultivating personally, in Kharief 1971, land in village A. In all the three villages, mutations have been attested giving effect to the conferment of ownership rights the evacuees' land on X. On all these mutations, the Tehsildar acting under this Chapter, shall endorse, orders directing that the orders already passed be not given any effect, because the provisions relating to the conferment of ownership rights in land held in personal cultivation, as given in the Act, do not apply to evacuees' land. (iii) [ 'A' held land in village X measuring fifteen standard acres in the form of orchard that existed as such on first September, 1971. He also held land, other than orchard, measuring four standard acres, in Personal cultivation in Kharief, 1971. 'A' or any other member of his family did not have any other land or orchard on first September, 1971. Mutations has been attested in this village extinguishing rights of ownership of 'A' in four standard acres of land held by him in addition to the orchard. His right of ownership in the orchard has been kept in tact. On this mutation the Tehsildar, acting under this Chapter shall endorse an order, directing that order already passed be not given any effect because the orchard does not come within the definition of land] [Substituted by SRO-430 dated 28-7-1978].

A has died after first September, 1971 but before first May, 1973 and mutation No. 30 has been attested sanctioning the devolution of the rights of A on his sons, B and C, in equal shares. Neither B nor C had ever had land in their possession, including that held by other members of their respective families and that devolving on them by mutation No. 30, in excess of the limit permitted by the Act. The mutation under this rule shall give effect to the extinguishment of rights of L and shall direct that B and C be recorded as prospective owner in equal shares.

**If A has died after first May, 1973** the mutation order shall direct A be recorded as prospective owner until the date of his death and that B and C be recorded as such prospective owners in equal shares from the said date.

**(ii)** In the aforementioned illustration, A has not died but he has transferred his rights of occupancy tenancy after first September, 1971, but before first May, 1973 in favour of B. The transfer is valid and the Tehsildar, attesting the mutation under this rule, is satisfied that it is bonafide. The mutation of transfer of occupancy rights from A to B has already been attested, B does not have, along with the other members of his family, land, including the land so transferred to him, in excess of the limits permitted by the Act. The mutation under this rule shall give effect to the extinguishment of rights of L and shall direct that B be entered as a prospective owner of such land with effect from first May, 1973.

**(iii)** A was owner and B tenant-at-will under him for five standard acres of land in village X on the First September, 1971, C purchased rights of A as well as of 13 before first May, 1973. The purchase is valid and is found bonafide by the Tehsildar attesting mutations under this rule. If the mutation of transfer has already been attested in favour of C, the mutation under this rule shall direct C to be recorded as prospective owner provided the limit to landed property under sub-section (2) of section 14 is not pierced. If the mutation of transfer has not been attested the mutation under this rule shall identify the land for which B should have been recorded as prospective owner, if the land had not been transferred, and shall simultaneously give a finding, for reasons to be recorded, that the transfer is valid and bonafide and shall direct, subject to sub-section (2) of section 14, that C be recorded as prospective owner of such land. If it is found that, as a result of such transfer, C has more land in his possession than he is entitled to under sub-section (2) of section 14, the Tehsildar, shall also identify after giving an opportunity of being heard to the transferee, the excess land and shall direct that this excess land, having vested in the State, be recorded in the ownership of the State.

**(iv)** In illustration (iii) B held, besides the land mentioned therein, sixteen standard acres of land in his personal cultivation on first September, 1971. He cannot hold land more than seven and a half standard acres in additions to other categories of land exempted from the operation of the Act by section 3.

No. 10 of succession of B is in favour of D1, D2 and S1 in equal shares under section 42 of the earlier Act. The Revenue Officer attesting mutation under the rule shall first amend the order given on mutation No 10 under rule 11 so as to direct that the land held by B be entered in the name of S1 alone. Thereafter he shall, on the mutation written up under this rule, direct that B be entered as prospective owner of land until the date of his death and thereafter S1 be entered as prospective owner. In this illustration it is assumed that S1 along with the other members of his family, does not have any land other than that inherited by him from A. (3) The person mentioned in clause (a) of sub-section (1) of section 6, occupying the dwelling house mentioned therein and vested in the State, shall be recorded in the tenant's column as prospective owner of the dwelling house and the land mentioned in clause (b) thereof, if such dwelling-house and such land are selected in the return accepted under rule 9 or the aggregate land held by such person along with other members of his family, if any, was within the limits provided by the Act on the first day of September, 1971; provided that in case of death of such person after the first day of September, 1971, provisions contained in clauses (b), and (c) of sub-rule (2) shall apply mutatis mutandis. (4) Such prospective owners, as are mentioned in sub-rules (2) and (3), shall be directed to be recorded as holding such land and dwelling house under the State on payment of rent to the State at the rate it was payable before first day of May, 1973, the State being liable to pay such rent, after deducting collection charges at 10% of such rent, the ex-landlord of such tiller or occupant, the recovery or payment of rent being made in such form and manner, subject to the conditions and until such time as is provided by or under Chapter VI of these rules. (5) Such legal heir or transferee, mentioned in clauses (b) and (c) of sub-rule (2), as is found in possession of land in excess of that permitted by sub-section (2) of section 14, shall be recorded in the tenant's column as being in possession of such excess land. (a) in lieu of rent payable to the State at 40 times, the land revenue plus cases and other charges payable for such land, where such legal heir/ transferee was owner of such land; and (b) in lieu of rent payable to the State in such form and manner as is provided by Chapter VI and at the rates at which it was payable earlier by him to ex-landlord, where such legal heir/transferee was tiller of such land: until such land is allotted and possession thereof transferred to the allottee.

### 13. Mutations under section 5

(1) In each village and in respect of each statement in Form 4 mutation shall be written up and attested for giving effect to the extinguishment of all rights, title and interest in land of the person to whom the statement relates, where such person held such land in excess of the area selected by him under section 5 on first September, 1971. No other member of his family held any land on this date. A, sold five standard acres out of the land held as owner and jointly with 13, three standard acres out of the land held by him as tiller to C on 10th October, 1972. The aggregate area of 8 standard acres thus sold by him shall be deducted from the ceiling area of 12-1/2 standard acres which he could have retained, but for the aforementioned sales. As it is, A can be recorded as owner/prospective owner of only 4-1/2 standard acres (12-1/2 minus 8) selected for the purpose by him.(ii)In the aforementioned illustration, the land held by C along with other members of his family, on first September, 1971 does not, along with the eight standard acres so purchased by him exceed 12-1/2 standard acres. The sales we found valid and bonafide by the Tehsildar attesting mutations under this ruler. C shall be recorded as owner of such land measuring eight standard acres.(iii)In illustration (i), A select 4-1/2 standard acres out of land held earlier by him as owner. Half a standard acre of land, held earlier by land as owner, shall vest in the State and shall be available as surplus land for allotment under section 15.
