Projection wall 12 ft.

Side walls 10 ft.

Height 8 ft.

(2) The construction shall be of fire resisting materials, stone slabs shall not be used for roof or floor and the door shall be of steel and of self-closing type. (3) Projection and observation posts shall be maximum 8 inches square, glazed with plate glass and shall have automatic closing metal shutters with master control. (4) Extra fans for ventilation shall be provided and fume chimneys over projectors shall be used. Two liquid chemical extinguishers one fire extinguisher using carbon tetrachloride acid, one bucket of sand two buckets of water and a damp blanket shall be kept inside the room. A large sponge shall be kept in one of the buckets of water one liquid chemical extinguisher shall also be kept immediately outside the room.] [Substituted by Notification No. F.20 (10) Home/A/Gr.(II) 62, dated 15.2.1963 published in Rajasthan Gazetted, Part 4-C, Supplement No.1, dated 4.4.1963.]

31. Re-wind Room.

- Re-wind room shall be separate from projection room and its minimum dimensions shall be 8 feet by 8 feet high. It shall not be used for purposes other than re- winding and storing films not in use.

All films shall be stored in metal boxes: Provided that nothing in this rule shall apply to premises duly licensed for use for cinematograph exhibition before the coming into force of these rules. [Provided further that it will not be necessary in 'Lok-Chhavi' to have separate rewinding room and rewinding will be permissible in the projection room itself, keeping due regard to safety." [Added vide Notification No. F.1/7(2) Homes 5/77 dated 28.8.1982 Published in Rajasthan Gazetted Part III B dated 9.9.1982, P.9.]

32. Clock Rooms.

- Where clock rooms are provided they shall be so situated that the use of them shall not obstruct the free use of any exit.

33. Doors.

(1) All outside doors for the use of the public shall be made to open outwards and all internal doors shall be hung so as not to obstruct, when open any gangway, passage stairway for lading. Such doors when open should engage on an automatic spring. (2) All such doors may be kept closed but not bolted during a performance or exhibition; provided an attendant is placed in charge of each such door whose duty it shall be to throw open the door in case of emergency. (3) All exit doors having fastenings shall be fastened by automatic or panic bolts only, of a pattern and in a position to be proved by the licensing authority, but where such doors are also to be used by the public for entrances they may be fitted with lever or other approved fastenings in approved positions. Doors so fitted, however, must not be fastened so long as any of the public are on the premises. (4) All barriers and internal exit doors shall be made to swing or to open outwards with no other fittings than automatic bolts. (5) No doors, handles or other fittings shall project into exit ways more than one inch when the doors are open, and no locks, monkey tails, flush or barrel bolt, or lucking bars or other obstructions to exit; other than as before mentioned shall be fitted on any doors, gates or barriers.

34. Stairways.

(1) There shall be at least 2 stairways each not less than 4 feet wide to provide access to any gallery or upper floors in the building which is intended for use by the public. [Provided that it shall not be necessary to keep provision for more than one stair case in "Lok-Chahavi".] [Added vide Notification No. F.1/7(2) Homes 5/77 dated 28.8.1982 Published in Rajasthan Gazetted Part III B dated 9.9.1982, P.9.] (2) The treads and risers on each flight of stairs shall be of uniform width and height. The treads shall not be less than 11 inches wide and the risers shall not be more than 7 inches high. (3) There shall be no winders. (4) A continuous hand rail shall be fitted to each side of stairways. (5) No stairways shall discharge into a passage or corridor against or across the direction of exit; Provided that nothing in this rule shall apply to premises duly licensed for use for cinematograph exhibition before the coming into force of the rules.

35. Projections and Recesses.

- There shall be no recesses or projections in the walls of such staircases within 5 feet of the floor, and any fittings for lightnings shall be at least 6 feet, 8 inches above the steps or landing.

36. Fire Extinguishing Appliances.

- The following fire extinguishing appliances shall be provided:-(1)In the enclosure. - [Two liquid chemical extinguishers, one fire extinguisher using carbon tetrachloride acid, one bucket of sand, two buckets of water and a damp blanket shall be kept inside the enclosure. A large sponge shall be kept in one of the buckets of water. One liquid chemical extinguisher shall also be kept out-side the enclosure.] [Substituted by Notification No. F. 20(10) Home A (Gr. II/62, dated 15.2.1963, Published in Rajasthan Gazetted, Part 4-C, Sup. No. 1, dated 4.4.1963.]In the auditorium. - Four portable fire extinguishers, 20 buckets of water and a cistern supplying not less than five gallons of water per 100 square feet of floor area stored.(2)These appliances shall be so disposed as to be readily available for the use. The buckets shall have round bottoms and handles and shall be of 2 1/2 to 3 gallons capacity, each to hold not less than 2 gallons of water. They shall be printed red with the word "Fire" painted on them in large black letters in English and the [vernacular.] [Added vide Notification No. F.1/7(8) Home 5/80 dated 24.3.1982 Published in Rajasthan Gazetted Part III dated 17.6.1982, P.8.](3)The portable fire extinguishers shall be of soda acid type and of the two gallon size, they shall be installed at an adequate height from the ground. A record regarding the maintenance of portable extinguishers shall be kept.(4)Where a portable fire extinguisher of the chemical combination pressure type is older than three years or has not been tested previously, it shall be tested by hydraulic pressure by the Electrical Inspector or by an engineering firm or mill authorised in this behalf by the licensing authority, to show that it can withstand for one minute a pressure of 300 lb. per square inch and a certificate of such test shall be submitted to the licensing authority, Similar tests shall be repeated once in two years.(5)At least four stirrup pumps and eight buckets filled with water. If there is no gallery or first floor in the premises and at least six stirrup pumps and twelve buckets filled with water if there is a gallery or first floor in the premises in which case, at least two stirrup pumps and four buckets filled with water shall be kept in the gallery or first floor.(6)Attendants and staff be trained in the use of all fire- fighting equipment maintained in the premises.(7)The licensee shall (i)once in every three months empty the container of each portable fire extinguisher provided in the licensed premises, clean its nozles and working parts, stir the liquids in it and top it up, immediately record the date of having done so on a slip of paper and paste the same on the out side of such container,(ii)once in every year discharge each portable fire extinguisher provided in the licensed premises and recharge it and immediately record the date of such recharge in durable paint on the external surface of the container of the portable fire extinguisher; and(iii)Stock at least five refills for the use of the fire- extinguishers.

37. Fire Regulations.

(1)The regulations to be followed in case of the fire should be always pasted in some conspicuous place so that all people concerned shall be acquainted with the fire extinguishers.(2)A report of any fire or alarm of fire, however slight, in the premises shall be at once sent to the Store-Keeper, Public

Works Department and to the nearest public station.

38. Lights.

- Every portion of the cinema devoted to the use or accommodation of the public and also all out-lets leading outside the cinema including corridors shall be well and properly lighted during every performance and the same shall be lighted until the entire public have left such premises.

39. Additional lights.

- All "Exit" signs shall be fitted with an auxiliary bulb capable of properly illuminating the sign; the bulb shall be kept burning throughout the show from a separate circuit controlled by a separate switch.

40. Electric lighting.

(1)Where electric light is reasonably available for use, no other illuminant shall be used for the purpose of the exhibition, the choking coils, switches, and fuses being installed in accordance with the instructions issued by the Electric Inspector from time to time. In any case no illuminant other than electric light or lime light shall be used for such purposes.(2)The general lighting of the auditorium and exits shall not be controlled solely from within the enclosure.[Provided that the provisions of sub-rules (1) and (2) of this rule shall not apply to "Lok-Chhavi"[Added vide Notification No. F.1/7(2) Homes 5/77 dated 28.8.1982 Published in Rajasthan Gazetted Part III B dated 9.9.1982, P.9.]

41. Engines, Boilers and Dynamos.

(1)Where electric light is not available, all time light supply tanks, boilers and engines and dynamos with engine used in connection with, the premises shall be placed in ventilated buildings of fireproof construction, and shall be separated from the cinema house and from each other by brick walls and fireproof, and shall enclosed on one or more sides by external walls. All door ways in such building shall have iron doors.(2)No coal, coke, wood or other combustible material shall be so stored or placed that it is likely to be affected by the head of the furnace, boiler or heating apparatus.(3)No petrol driven engines shall be allowed for generating electric current unless they are fixed in a fireproof compartment at least 10 feet from any other building.(4)Every fly wheel directly connected with an engine or other mechanical power and any part of the machinery which may be dangerous if left unfenced shall be kept securely fenced.

42. Check Boxes.

- All Check Boxes shall be fixed and placed in such position that they will not obstruct the exits.

43. Telephone.

- Every cinema shall be provided with a telephone where available, which shall be fitted in such place and manner as the licensing authority may direct.

44. Latrines and Urinals.

(1) Every cinema, shall be provided with separate latrines and urinals for the use of males and females. Such latrines shall be respectively to a minimum scale of one and two per hundred seats. (2) In places where water supply is available water flushed latrines and urinals shall be provided, and where such supply is not available they shall be detached from the main building and shall be maintained in a sanitary condition and shall be drained in a soak pit. (3) Water flushed latrines and urinals shall discharge into a septic tank or sewer which shall be at least 16 ft. by 3 ft. by 6ft. deep and shall be provided with two main holes with covers, sluge pipes, valves and chambers for cleaning. Effluent from such tank and sewer shall discharge into a soak pit. (4) Latrines and urinals, shall be constructed and maintained to the satisfaction of the Medical Officer of Health and shall be cleaned and rendered effectively disinfected after each performance.

45. Spittoons.

(1) Every cinema shall be provided to the satisfaction of the Medical Officer of Health with a sufficient number of spittoons in suitable places for the use of the public. (2) The spittoons shall contain a strong disinfectant and shall be emptied after each performance. (3) Notices directing the attention of the public to the spittoons shall be provided in prominent places.

46. Enclosure for Apparatus.

(1) The cinematograph machines shall be placed in a permanent enclosure of sufficient dimensions to allow the operator to work freely. The enclosure shall be substantially constructed of fire-resisting materials or lined with the same. (2) The entrance to the enclosure shall be fitted with a closely fitting door of fire-resisting material suitably placed and opening outwards and all openings, bushes and joints shall be so constructed and maintained as to prevent so far as possible the escape of any smoke into the auditorium. If means of ventilation are provided they shall not be allowed to communicate direct with the auditorium. The area of the ventilating ducts of the enclosure shall not be less than one per cent, of its floor area. Explanation :- By 'bush' is meant packing inserted in the holes through which the pipes and cables pass in order to render such holes reasonably smoke-proof. (3) Openings not exceeding six in number shall be permitted in the front, face of the enclosure, the central one of which must not exceed 8 inches square and those on each side 6 inches square. The projector opening must be fitted with a screen of fire-resisting material capable of being actuated both from the inside and from the outside of the enclosure. (4) The necessary pipes and cables shall enter through efficiently bushed openings. (5) No. unnecessary combustible material shall be allowed within the enclosure, and as far as possible all necessary combustible material, films and the like, when not in use shall be kept in fireproof receptacles suitable for the purpose.

47. Projector machine.

(1)The cinematograph machine shall be placed on firm supports of fire resisting materials.(2)The body of the machine shall be constructed of metal or lined with metal and asbestos in which case there must be an air space between the metal and the asbestos lining.The bottom of the machine must form a metal tray which shall be surrounded by a vertical edge at least one inch in depth.(3)It shall be provided with a metal shutter which shall fall automatically against the film gate, between it and the source of light.(4)The shutter automatically drop in the event of any accident to the machine or stoppage of the film and shall automatically ruse only when the film is in motion for the purpose of projection.(5)The film gate shall be of massive construction and provided with ample heart radiating surface and passage for the film shall be sufficiently narrow to prevent half travelling upwards or downwards from the light opening.(6)All cinematograph projectors shall be fitted with two metal film boxes of substantial construction and more than 17 1/2 inches in diameter; inside measurement to and from which the films shall be made to travel.(7)Such boxes shall be of approved construction shall be made to close in a manner which prevent the ingress of fire and shall be fitted with a film slot so constricted as to prevent the passage of flame to the interior of the film box.(8)Spools shall be chained or gear driven and films shall be wound upon spools so that the wound film shall not at any time reach or project beyond the edge of the flanges of the spool.(9)All films when not in the cinematograph machine and while still in the enclosure, shall be contained in closed metal boxes.

48. Electric Installation inside the enclosure.

(1)Within the enclosure the insulating material of all electric cables; including those leading to illuminating lamps, shall be covered with fire-resisting material. If the electric pressure to the cabin exceeds 125 volts, all cables inside the cabin shall be enclosed in screwed metal conduits connected to the earth. Lead covered cables shall not be used unless enclosed in such conduits. No electric current at a higher pressure than 110 volts shall be used within the enclosure when a cinematograph apparatus is working:[Provided that an electric current at a pressure of 230 volts may be used in a cinema, if special precautions to be decided by the Electric Inspector have been undertaken under his directions. This proviso shall apply to those equipments which have been in operation prior to the coming into force of these rules]. [Added vide Notification No. 21(36) Home A (Gr.II)/60. Dated 3.6.1961, Published in Rajasthan Gazetted, Part 4-C, Ordinary, dated 13.7.1961.](2)The cables for the cinematograph machine shall be taken as a separate circuit from the source of supply and from the supply side of the main fuses in the general lighting circuit on the premises and there shall be efficient switches and fuses inserted at the point where the supply taken and in addition an efficient double pole switch shall be fitted in the cinematograph lamp circuit inside the enclosure.(3)Resistance frames shall be entirely of fire resisting material and shall be so constructed and maintained that no coil or other part shall at any time become unduly heated. All resistance with the exception of resistance for regulating purposes shall be placed outside the enclosure and if reasonably practicable outside the auditorium if inside the auditorium they shall be adequately protected by a wire guard or other efficient .means of preventing accident contract. They shall not be permitted to become so heated that a piece of dry newspaper placed in contract with any part of resistance would readily ignite.

49. Provisions relating to use of limelight.

(1) If limelight is used in the cinematograph lantern the oxygen and hydrogen gas shall be contained in cylinder and each such cylinder shall be accompanied by a certificate signed by the manufacturers to the effect that it has been tested and filled in conformity with the requirements set out in the schedule. The tubing shall be sufficient strength to resist pressure from without and shall be properly connected up. (2) No gas shall be stored or used except in containers in accordance with the requirements contained in the schedule. (3) No [ether or volatile and inflammable liquids shall be employed under any circumstances for producing light. [Substituted vide Notification No. F. 1 (7)(8) Home 5/80, dated 24.5.1982, Published in Rajasthan Gazetted Part II, dated 17.6.1982, P. 8.]

50. Fire precautions in the enclosure.

(1) Two liquid chemical extinguishers [one Sire extinguisher using carbon tetrachloride acid] [Inserted by Notification No. F. 20(10) Home A (Gr. II)/62. dated 15.2.1963, published in Rajasthan Gazetted, Part 4-C, Supplement No.1, dated 4.4.1963.] one bucket of sand, two buckets of water and a damp blanket shall be kept inside the enclosure. A large sponge shall be kept in one of the buckets of water. One liquid chemical extinguisher shall also be kept immediately outside the enclosure. (2) No smoking shall at any time be permitted within the enclosure or the auditorium.

51. Winding Rooms.

(1) The winding room shall be constructed entirely of fire-resisting materials and shall be large enough to allow the winder to operate freely. It shall be [constructed apart] [Substituted vide Notification No. F. 1 (7)(8) Home 5/80, dated 24.3.1982, Published in Rajasthan Gazetted Part II, dated 17.6.1982, P. 8.] from the projection room and auditorium, but the licensing authority may for reasons to be recorded, permit the winding room to adjoin the projection room. The winding room shall have no openings in the wall so as to permit communication with the auditorium or public passage ways. (2) The winding room shall be closed by a closely fitting self-closing door of fire-resisting materials which shall only be open for ingress and egress and shall remain closed during the entire period that the cinematograph exhibition is in progress. Suitable arrangements shall be made for ventilation in the winding room and one or more electric fans of suitable dimensions shall be provided by the licensee. (3) Only electric lines shall be used in the winding and any lamps in proximity to the film shall be closed in a stout fitting design to prevent breakage of the bulb. (4) The spools shall be chain for gear driven and films shall be so wound upon the spools that the wound film shall not, at any time, reach or project the edges of the flanges of the spool. (5) The winding of films shall not be carried out in the projection room while an exhibition is in progress. (6) Excepting a film which is being wound or stored, no inflammable article shall unnecessarily be taken into or be allowed to remain in the winding room. (7) All cinemas in permanent buildings shall without exception, be required to provide and use a winding room in accordance with the above requirements. (8) Not more than 200 lb. of explosive cinematograph film shall be stored in the premises to which this licence relates, unless a specific licence has been obtained from the Chief Inspector of Explosives in the India as required by the Cinematograph Films Rules, 1948.

Part IV – Rules regarding temporary buildings or enclosures and special cinematograph exhibitions.

52. Requirements of temporary enclosure.

- A temporary enclosure shall fulfil the following requirements:- (1) It shall consist of a smoke proof box constructed of sheet iron or steel or a substantial framework and securely fastened together. The internal height from the floor to roof shall be at least ten feet. The floor shall be forty eight square feet. The room shall be of such width as may allow sufficient space behind the machine for the operators to pass easily. (2) All apparatus within a temporary enclosure shall satisfy the requirements prescribed for similar apparatus in a permanent building except that such apparatus may be of a portable type.

53. Conditions in respect of touring cinemas.

- The cinematograph apparatus shall have been certified by the Electric Inspector within a year of the date on which the exhibition is given to be usable without danger to the public.

54. Inspection of touring cinematographs.

(1) Touring cinematographs used for giving public exhibitions shall be brought for the purposes of inspection by the Electric Inspector to a town where a licence under the Act has been granted once in every three years. (2) If after such inspection the Electric Inspector is satisfied that a touring cinematograph is without danger to the public he shall issue a certificate to this effect.

55. Exhibitions in tents, etc.

- In the case of exhibitions given in tent or booth or in any shelter or structure composed of, or covered with, combustible materials or of movable character the cinematograph apparatus shall be operated from outside such tent, booth, shelter or structure and shall be placed at a distance at least six feet therefrom.

56. Only qualified operator to remain present.

- No person other than a qualified operator, employed by the licensee and holding a certificate granted by the Electric Inspector of an apprentice duly authorised by the licensee under rule 70 shall be allowed to enter or to be in the enclosure or the 'reserved space' while an exhibition is in progress.

57. Inflammable articles and smoking.

- No inflammable articles shall unnecessarily be taken into, or allowed to remain in, the enclosure of 'reserve space' no smoking shall be permitted therein and no naked light shall be used therein.

58. Drapery and unprotected combustible materials.

- No drapery and no unprotected combustible materials other than such materials as may compose the floor shall be within six feet of the cinematograph apparatus.

59. Fire appliance.

- The following fire appliances shall be provided viz. a bucket of sand, two buckets of water, a damp blanket and one portable chemical fire extinguisher of pattern class and capacity approved by the licensing authority and such other appliances as the licensing authority may prescribe. They shall be so disposed as to be readily available for use in case of fire within the enclosure.

60. Films not in use.

- All films not in use shall be kept in securely closed fire-resisting receptacles.

61. Means of exit

(1) Adequate means of exit shall be provided as prescribed by the licensing authority. (2) Without prejudice to the generality of the foregoing sub- rule, no tent, booth or similar structure shall be used for the purpose of a cinematograph exhibition, if it enclosed by a wall or walls which do not permit of adequate means of egress and which are erected within 30 feet of such tent, booth or similar structure.

62. Seating.

- The seating shall be so arranged as not to interfere with free access to exits, and both exits and passages and gangways leading to them shall throughout the performance be kept clear of all obstacles.

63. Touring cinematographs to be licensed only where there is no permanent cinema.

- Licenses, to touring cinematographs shall only be granted for places where there are no permanent cinemas : Provided that the Government or the District Magistrate may in a particular case permit the exhibition of films for purposes by temporary, touring on Open Air Cinemas within 5 miles radius of permanent cinema.

64. Pandal used during special cinematograph exhibition or by touring cinematographs.

(1) In every panda' construction of inflammable material, there shall be kept on each side an opening at least seven feet high and eighteen feet wide. The opening may be closed by tattis fixed on split bamboo frame, fastened by twine on the inside but so be easily removable. (2) Doors and openings not ordinarily in use may be covered or closed by mats, screen or similar material so as to prevent removal by light pressure from inside building or structure.

65. Notice for special cinematograph exhibition.

- No cinematograph exhibition shall be given in any premises where such exhibition is not a regular feature, unless notice has been given, at least ten clear days before the exhibition is due, to the licensing authority.

66. Exemption of special cinematograph exhibitions from certain provisions or rules.

- Where a cinematograph exhibition is to be given in an institution, club or other place and it is not practicable to provide therefore a fire proof enclosure the licensing authority may for reasons, to be recorded, dispense with the requirements of any of the foregoing rules. A space of six feet shall, however, be railed off all around the cinematograph apparatus, if the provisions applicable to temporary enclosure are for any reasons relaxed. No drapery and no unprotected combustible material other than film or that composed by the floor shall be within six feet of the cinematograph apparatus. Adequate precautions shall be taken against the probable out- break of fire and for the safety of the film.

Part V – Licence and other fees

67. Fees.

(1) The fee for a license or renewal of a license inclusive of the inspection by the Public Works Department Officer and the Health Department Officer shall be as follows :-(1) [(a) for a permanent cinema. -[Substituted vide Notification No. GSR 81(56) F.12(12) Home/14/73, dated 6.5.1975, published in Rajasthan Gazetted, Part 4-C(1), Ordinary, dated 24.7.1975.]

Part VI – Operators And Apprentices

68. Certification of operators.

(1)During an exhibition the enclosure shall be in charge of a qualified operator of not less than 18 years of age, who holds a certificate [XXX] [Omitted vide Notification No. F.21(36) Home A (Gr. II)/60, dated 3.6.1961, published in Rajasthan Gazetted, Part 4-C Ordinary, dated 13.7.1961.] granted by the Electric Inspector to the effect that he is competent to handle and operate a cinematograph.(2)An operator shall not be a granted a certificate unless he (a)processes a working knowledge of cinematograph machine and a particular technical knowledge of the type of machine which he is at the time employed in operating:(b)is already conversant with the rules relating to cinematograph exhibitions and precautions against fire:(c)is acquainted with the most speedy and effective methods of dealing with lire:(d)possesses of a tine knowledge of the elements of electric power direct and alternating current, voltage and the like: and(e)is proficient in the handling, winding, repairing and efficient cleaning of films:(2A)[] [Renumbered and substituted vide Notification No. F. 1(7)(8) Home 5/80, dated 24.5.1982, Published in Rajasthan Gazetted Part III, dated 17.6.1982, P. 8.] An operator may obtain a certificate from the Electric Inspector having jurisdiction by presenting himself within a period of 3 months from the date of his appointment, before the said Inspector at his Head-quarters or at any other place the Inspector can examine the operator. If, for valid reasons the Inspector is not in a position to examine the applicant, he may extend the time limit not exceeding 2 months in writing to the applicant under intimation to the licensing authority.(3)[the Electric Inspector may, after issuing a notice to the operator and after considering his reply if any, withdraw a certificate granted by him, for the reasons to be recorded in writing]. [Renumbered and substituted vide Notification No. F. 1(7)(8) Home 5/80, dated 24.5.1982, Published in Rajasthan Gazetted Part III, dated 17.6.1982, P. 8.](4)In regard to the grant and withdrawal of certificate, the Electric inspector shall act under the general supervision of the licensing authority.(5)The fee for grant of a certificate shall be ten rupees and a duplicate copy thereof may be granted on payment of a fee of two rupees.

69. Duties of operators-incharge.

- The operator-incharge shall -(a)be present in the enclosure and devote his whole attention to the cinematograph during the whole time and it is being operated:(b)before the commencement of an exhibition, satisfy himself that all cables, connections and fire extinguishing appliances in the enclosure are in proper working order:(c)inspect the resistances, if not under constant observation at least once during each performance and switch off the current any faults is detected : and(d)not allow the film to travel through the machine at a grater speed than 100 feet a minute.

70. Apprentices.

- An apprentice duly authorised by the licensee may be allowed in the enclosure. Such apprentice shall not be less than sixteen years of age and shall not be permitted to operate the cinematograph apparatus except in the presence of the operator-in-charge.

71. Person under drink prohibition from operating.

- No person shall operate a cinematograph or be within the enclosure while under the influence of liquor or any other intoxicant.

72. List of Operators.

- Every licensee shall furnish the licensing authority with a list of operators employed by him and when every any operator is engaged by him he shall furnish the licensing authority and the Electric Inspector with particulars regarding him before he is allowed to commence work.

Part VII – Miscellaneous

73. When license may not be granted.

- No licence shall be granted or renewed in favour of any person unless (i) he or his agent is residing in the city town or area within which the cinematograph exhibition is intended to be given and (ii) the licensing authority is satisfied that the requirements of these rules have been fully complied with.

74. Special conditions of a licence.

- In addition to the conditions laid down by the Act these rules, the following conditions shall be deemed always to be inserted in every licence :-(i)No firework shall be used as an adjunct to a cinematograph exhibition.(ii)Save as the licensing authority may by written order permit, no loudspeaker, gramophone, band,. drum, horn, whistle siren or musical instrument of any kind shall be employed or allowed to be used as an advertisement or attract attention in or outside the cinema nor shall any device be employed which is designed or serves to deliver the entertainment to persons
