25. Action to be taken on completion of examination of packages at the premises of the manufacturer or the packer

- [(1) If it appears from the report referred to in sub-rule (3) of rule 24 that,-(a)the statistical average of the net quantity contained in the packages drawn as samples under that rule is lesser than the quantity declared on the packages or on the labels affixed thereto, or(b)any such package shows an error in deficiency greater than the maximum permissible error, or(c)any such package does not bear thereon or on label affixed thereto the declarations to be made under these rules,the Director or the authorised person shall take action as given below:-(i)seize the packages drawn by him as samples and shall take adequate steps for the safe custody of the seized packages until they are produced in the appropriate Court as evidence;(ii)based on the evidence initiate action for violations of the provisions of the Act and these rules:Provided that no such action shall be taken if fresh tests are carried out under sub-rule (4) of rule 24, but if after such fresh tests any such error or omission as is referred to in this sub-rule is detected, the Director or the authorised person shall take appropriate action as specified in this sub-rule in accordance with the provisions of the Act against the manufacturer or, as the case may be, the packer.] [Substituted by G.S.R. 425(E), dated 17-7-2006 (w.e.f. 13-1-2007).][* * *] [Sub-Rule (2) omitted by G.S.R. 425(E), dated 17-7-2006 (w.e.f. 13-1-2007).](3)The disposal of the seized packages shall be made in accordance with the provisions of the Code of Criminal Procedure, 1973 (2 of 1974).

26. Action to be taken with regard to packages examined at the premises of the wholesale dealer or retail dealer

.- (1) Ordinarily, any test in relation to the net quantity contained in a package shall not be carried out at the premises of the retail dealer or the wholesale dealer unless- (i) a complaint is received by the Director or the authorised person to the effect that the package sold or delivered to the complainant does not contain the quantity declared on such package or on the label affixed thereto; (ii) the Director or the authorised person has reason to suspect that any package has been tampered with or that there has been any pilferage or leakage of the commodity contained in the package; (iii) the Director or the authorised person has reason to suspect that any package, or any label affixed thereto, does not bear thereon all or any of the declarations which are required to be made under these rules. (2) Where any test is carried out in pursuance of the provisions of sub-rule (1), the Director or the authorised person shall verify whether the quantity contained in the package corresponds to the quantity declared on such package or any label affixed thereto, and where the quantity contained in the package is less than the declared quantity, whether the deficiency is more than [* * *] [The word "twice" omitted by G.S.R. 113(E), dated 12-3-2004 (w.e.f. 1-9-2004).] the maximum permissible error in relation to that commodity. (3) Where the Director or the authorised person finds on a test carried out under this rule that the error in deficiency in any package kept or stored for sale, distribution or delivery at the premises of the retail or wholesale dealer, is more than [* * *] [The word "twice" omitted by G.S.R. 113(E), dated 12-3-2004 (w.e.f. 1-9-2004).] the maximum permissible error in relation to that commodity, he shall seize such package and take appropriate action against the retail dealer or the wholesale dealer, as the case may be, in accordance with the provisions of the Act: Provided that where the package bears the legend "when packed", no punitive action shall be taken against the retail dealer or wholesale dealer if the Director or the authorised person is satisfied after necessary tests, that the deficiency in the quantity contained in the package is due to environmental conditions. (4) Where, as a result of any test made under this rule, it is found that the net quantity contained in the package conforms to the declared quantity or where there is a deficiency, such deficiency is not more than [* * *] [The word "twice" omitted by G.S.R. 113(E), dated 12-3-2004 (w.e.f. 1-9-2004).] the maximum permissible error, the retail dealer shall be at liberty to sell or deliver or distribute such commodity at the price determined on the basis of the quantity found on such tests. (5) Where, as a result of any test made under this rule, it is found that any package, or any label affixed thereto, does not bear thereon all or any of the declarations required to be made under these rules, it shall be lawful for the Director or the authorised person to make such inquiries as to the source from which such package was received by the wholesale dealer or retail dealer and to take such punitive action against the wholesale dealer or the retail dealer, as the case may be, as he may think fit.

27. Establishment of maximum permissible error on packages

.- (1) The maximum permissible error in relation to the commodities specified in the First Schedule shall be such as is indicated in the corresponding entries in that Schedule against the concerned commodity and the maximum permissible error in relation to any commodity not specified in the First Schedule, shall be such as is specified in the Second Schedule: Provided that the Director may establish, the maximum permissible error in relation to any commodity not specified in the First

Schedule, and on such establishment, the concerned commodity and the maximum permissible error in relation thereto shall be deemed to have been included in the First Schedule.(2)The Director shall cause a co-ordinated programme to be undertaken, at such places and in such manner as he may think fit for the establishment of the maximum permissible error in relation to commodities referred to in sub-rule (1) or the proviso thereto.(3)While establishing the maximum permissible error in relation to the net quantity of commodities contained in packages, due account shall be taken of the following causes which may lead to variation in the quantity, namely:-(a)variations caused by unavoidable deviation in weighing, measuring or counting the contents of individual packages that may occur in good packaging practice;(b)variations caused by the ordinary and customary exposure to conditions, such as, climate, transport, storage or the like that normally occur in good distribution practice after the commodity is introduced in trade or commerce; and(c)variation due to the nature of packaging material or container.(4)The Director shall determine, or cause to be determined, in relation to any commodity, the declaration in respect of the net quantity of which is permitted to be qualified by the words "when packed ", the reasonable variations which may take place by reason of the environmental conditions.

28. Deceptive packages to be repacked or in default to be seized

-(1) If, on the determination of the quantity contained in the sample packages, the Director or the authorised person finds that the quantity contained in the package agrees with the declaration of the quantity made on the package or label thereon but the package is a deceptive package, he shall require the manufacturer or the packer, as the case may be, to repack and relabel such package and in the event of the omission or failure on the part of the manufacturer or the packer, as the case may be, to repack or relabel such deceptive package, in accordance with the standards established by or under these rules, seize them, take appropriate punitive action in accordance with the Act and take adequate steps for the safe custody of such packages until they are produced in a Court as evidence.Explanation .-For the purposes of this rule, "deceptive package "means a package which is so designed as to deliberately give to the consumer an exaggerated or misleading impression as to the quantity of the commodity contained therein, except where bigger dimensions of the package can be justified by the manufacturer or the packer, as the case may be, on the ground that such dimensions are necessary for giving protection to the commodity contained in such package or for meeting the requirements of the machine used for filling such package.(2)If the seized packages contain any commodity which is subject to speedy or natural decay, the Director or the authorised person shall dispose of the commodity in accordance with the rules made under the Act.

2. The sample shall be selected at random in accordance with the manner specified in paragraphs 3 and 4.

3. Where, for the determination of the net quantity of any commodity contained in a package it is necessary to take samples of packages stored by the manufacturer or packer in a warehouse, godown or at any other place, the sample shall be selected at random, from every [lot] [Substituted by G.S.R. 425(E), dated 17-7-2006, for " batch" (w.e.f. 13-1-2007).] of packages and shall be picked out from the top, bottom, centre, right, left, front and rear of the stocks so that the samples may adequately represent the packages in the [lot] [Substituted by G.S.R. 425(E), dated 17-7-2006, for " batch" (w.e.f. 13-1-2007).].

4. Where, for the determination of the net quantity of any commodity contained in a package it is necessary to take samples from the place where the package is being filled such sample shall be selected from among the packages which have already been filled, or in the alternative, the requisite number of empty containers may be taken over and each of them shall be adequately marked for proper identification and the tare weight of each container shall be accurately noted and thereafter the marked containers shall be introduced at random in the packing process so that, after the packages are filled it may be possible to determine the net quantity.

Explanation.-In this Schedule "sample size" means the number of packages to be selected as samples. Note.-(1) Where, on the commencement of the Standards of Weights and Measures (Packaged Commodities) Amendment Rules, 1992 (hereinafter referred to as the Amendment Rules), a manufacturer or packer is not in a position to make declaration in accordance with rule 4 of the Amendment Rules he shall start doing so as early as possible but in any case before the 30th day of June, 1992. (2) Packing of butter in "300g" and "400g", cereal product in "400g", of non-soapy detergent in "50g" shall be discontinued as early as possible but in no case later than the 30th day of June, 1992. (3) Packing of Cement, Zarda, Pan Masala and Paint Varnish in the quantities specified by this Amendment Rules shall be adopted as early as possible but in any case before the 30th day of June, 1992.] THE TENTH SCHEDULE (See rule 24) DETERMINATION OF THE NET QUANTITY OF COMMODITIES CONTAINED IN PACKAGES

Part I – EQUIPMENTS

1. Equipments required.-(1) The Director, or other person authorised by or under the Act, to determine the net quantity of commodity contained in any package, shall be provided by the concerned Government with adequate equipments and facilities to carry out his work to the required degree of accuracy in an expedient and efficient manner.

(2)The equipments, referred to in sub-paragraph (1), shall ordinarily consist of working standard weights and balances, or any other weight or measure declared by the Director to be suitable for determining the net quantity contained in the concerned package. (3) The Director or authorised person shall, before determining the net quantity contained in any package, ensure that the working standards and other equipments are functioning properly.

2. Working standards to be ordinarily used.-(1) Ordinarily, working standards and other weights and measures, duly verified shall be used for determining the net quantities contained in packages and the errors, if any, in relation to the net quantity declared on the package:

Provided that, where it is necessary to use the weights or measures owned or controlled by the manufacturer, packer or wholesale dealer as the case may be, such weights and measures shall not be used unless they are verified before use and no such weight or measure, shall be used unless the maximum permissible error of such weight or measure is twenty per cent or less of the maximum error permitted in relation to the net quantity of the commodity contained in the package.(2)It shall be the duty of every manufacturer, packer or wholesale dealer to render such assistance to the Director or other authorised person as the Director or the authorised person may require in order to carry out his duties expeditiously and efficiently.(3)Where any weight, measure or other equipment, owned or controlled by the manufacturer, packer or wholesale dealer is used by the Director or other authorised person for the determination of the net quantity contained in any package, such weight, measure or other equipment shall not be released by the Director or other authorised person until his work is completed.

Part II

INSTRUCTIONS WITH REGARD TO THE DETERMINATION OF QUANTITY AND ERROR AT MANUFACTURER'S OR PACKER'S PREMISES

3. Procedure for determination of quantity by weight at manufacturer's or packer's premises.-

(1)[If empty tare packages are available, one such package shall be taken and tare package weight determined. If the tare package weight is equal to or less than three-tenth of the maximum permissible error for the concerned commodity of that quantity, it shall be assumed that the tare package weight so determined is valid for all the other packages in the sample, and the sample

packages shall then be weighed for gross weight, and thereafter the net weight of commodity contained in each package shall be obtained by subtracting the tare package weight from the gross package weight. If the tare package weight so determined is more than three-tenths of the maximum permissible error in relation to the commodity for that quantity, weight of four more empty tare packages shall be determined. If the difference between the maximum tare package weight and the minimum tare package weight of the five samples is equal to or less than four-tenths of the maximum permissible error allowed for that commodity for that quantity, the tare weight of the package shall be taken as equal to the average of the five tare package weights. The gross weight of the package in the sample shall then be determined and the average tare package weight shall be subtracted from the gross package weight to obtain the net contents of the commodity in each package in the sample. However, when the difference in the five individual tare weights of the packages exceeds the limit of four-tenths of the maximum permissible error specified above, the procedure specified in sub-paragraph (4) or sub-paragraph (5), as the case may be, shall be adopted for determining the net quantity of individual packages.] [Substituted by G.S.R. 594(E), dated 17-8-1999 (w.e.f. 16-11-1999).](2)In the absence of empty tare packages, one package from the sample shall be opened and the net weight of the commodity and the tare weight of the package determined. If the tare weight of the package is equal to or less than three-tenth of the maximum permissible error for that concerned commodity of that quality, it shall be assumed that the tare weight of one package so determined is valid for all the other packages in the sample and the remaining packages shall then be weighed for gross weight, and thereafter the net weight of commodity contained in each package shall be obtained by subtracting the tare weight from the gross weight.(3)If the tare weight of the package specified in [sub-paragraph (2)] [Substituted by G.S.R. 594(E), dated 17-8-1999 (w.e.f. 16-11-1999).] is more than three-tenths of the maximum permissible error in relation to that commodity, four more packages in the samples shall be opened and the net weight of the commodity in each package as well as the tare weight of each package shall be determined. If the difference between the maximum tare weight and the minimum tare weight of five samples is equal to or less than four-tenths of the maximum permissible error for that commodity of that quantity, the tare weight of the package shall be taken as equal to the arithmetic mean of the five tare weights. The gross weight of the packages in the sample shall then be determined to the requisite accuracy and the average tare weight of the container shall be subtracted from the gross weight to obtain the net contents of commodity in each package in the sample.(4)Where it is found on examining the first package, as described in sub-paragraph (2) that the tare weight of the container exceeds the limits specified in sub-paragraph (2) and sub-paragraph (3) and the determination of net contents cannot be carried out without opening the remaining packages, or it is not possible to use the procedure described in sub-paragraph (5), the size of the sample to be examined shall be restricted to that indicated in column (2) in accordance with the batch indicated in column (1) of [Table] [Substituted by G.S.R. 594(E), dated 17-8-1999 (w.e.f. 16-11-1999).] of the Ninth Schedule and the determination of net quantity shall be carried out by opening all the packages in the sample.(5)Where it is likely that the process of determination of the actual net quantity may be destructive and it is possible to feed empty package into the packing process without affecting the results, the following procedure shall be used,(a)the number of empty packages, depending upon the size of the batch, in accordance with columns (1) and (2) of [Table] [Substituted by G.S.R. 594(E), dated 17-8-1999 (w.e.f. 16-11-1999).] of the Ninth Schedule shall be selected;(b)the empty package shall be marked suitably to identify them from the other

packages;(c)the weight of each empty package, with its other parts which are to be fitted on it after it is filled shall be determined and the weight suitably recorded on the empty package and also on the Form specified in the Eleventh Schedule;(d)the empty package shall then be filled by introducing them in a random manner in the packing process, and such introduction shall be adequately spread over the duration in accordance with which the size of the batch is determined;(e)the marked packages shall be taken out after completion of the filling and sealing operations and each such filled package shall be weighed again to the requisite accuracy;(f)the net quantity shall be obtained by deducting the tare weight determined in accordance with clause (c) from the gross weight.(6)The Director or other authorised person shall enter results of his examination of gross weight, net weight and tare weight in the Form specified in the Eleventh Schedule, alongwith such other observation as he may wish to make on the basis of his examination.

4. Determination of liquid contents by volume.-(1) If the specific gravity of the liquid commodity filled in packages remains sufficiently constant for a batch and it is possible to determine accurately its specific gravity, the method of determination of net contents by weight, described in paragraph 3 may be used.

(2)If the method described in sub-paragraph (1) is not feasible the containers shall be opened and the contents of each package poured out carefully into the appropriate volume measure.(3)The reading of the actual net volume of the commodity in every package shall be noted carefully and recorded in the Form specified in the Eleventh Schedule.

5. Verification of length of commodities.-(1) The sample shall be selected in the manner specified in the Ninth Schedule.

(2)If it is not possible to measure the dimensions without opening the package, the packages shall be opened.(3)The length of the commodity shall be measured by means of a calibrated steel tape of suitable length.(4)If the actual length of the commodity is so great that it is not possible to measure it with the tape measure and a suitable length measuring instrument is available on the premises, that instrument shall be used, after duly calibrating it by suitable means, with the steel tape serving as a working standard of length.(5)The reading of the actual length of the commodity in every package shall be noted carefully and recorded in the Form specified in the Eleventh Schedule.

6. Verification of commodities packed by number.-The Director or authorised person shall take packages from the sample drawn by him in the manner specified in the Ninth Schedule and determine the extent of error, by actual counting in each such package and may, for that purpose, open all packages.

[***] [Paragraph 7 omitted by G.S.R. 425(E), dated 17-7-2006 (w.e.f. 13-1-2007).]

8. Checking of other declarations.-(1) The declarations made on the package or on the label affixed thereto, shall be examined with a view to ascertaining whether such declarations confirm to these rules [and may be ensured either at the factory level or at the depot of the factory] [Added by G.S.R. 425(E), dated 17-7-2006 (w.e.f. 13-1-2007)].

(2)The additional declarations made on the package or on the label affixed thereto in respect of items (g) and (h) of sub-rule (1) of rule 6 shall also be examined to ascertain whether they are adequate.
